- **Victorian Careers Show 2026** – Wednesday 13 – Friday 15 May
- **Law Week 2026** – Monday 18 – Sunday 24 May

How to become an Actuary

According to the [Actuaries Institute](#), *actuaries evaluate risk and opportunity – they apply mathematical, statistical, economic and financial analyses to a wide range of business problems. We work in new, high-growth fields, such as data science, energy resources, and climate risk in addition to more readily recognised fields like insurance, superannuation, wealth management, investments, health financing, and banking. Many actuaries also hold executive positions in the operational management of financial institutions.*

Students might like to watch this short YouTube clip - [What do you do in your current job as an Actuary? - YouTube](#) to learn more.

The actuarial education program in Australia is made up of three parts, the *Foundation Program*, the *Actuary Program*, and the *Fellowship Program*.

Foundation Program – studying an undergraduate actuarial degree at one of eight accredited universities seven in Australia and one in New Zealand.

Actuary Program – students learn how to apply their technical actuarial skills to a range of problems across different business environments. Two subjects in this program are taught by the accredited universities with the other two being delivered by the Actuaries Institute in an online environment.

Fellowship Program – this level is offered online through the Actuaries Institute. It builds on the Foundation and Actuary Programs and teaches students how to apply their skills and complete studies in specialist areas of practice.

Students can become a fully qualified actuary by applying to become a Fellow of the Institute of Actuaries of Australia (FIAA). To qualify as a Fellow, members need to have passed or been exempted from the Institute's examinations, met the practical experience requirement, and completed a recognised Professionalism Course.

Find out more at [Becoming an Actuary | Actuaries Institute](#) and [FAQs](#).

Federation's science degrees give you the chance to explore your interests, gain hands-on experience, and prepare for exciting opportunities in industry, research, and beyond.

Love nature and want to protect our planet? The [Bachelor of Science \(Environmental Science\)](#) focuses on Australia's unique ecosystems. Students study ecology, wildlife, climate, and sustainability while gaining real-world skills through fieldwork in forests, coastal regions, and arid landscapes. This includes field trips to Nanya Station, our 40,000 hectare research property in western NSW.

The [Bachelor of Science](#) is perfect for students who are curious about the world and want the freedom to choose their direction. Students start broad in their first year, then dive deeper into areas like cell biology, microbiology, laboratory bioscience and more, to create a degree that matches their goals.

Students who have a passion for animals, will find the [Bachelor of Science \(Veterinary Bioscience\)](#) takes them inside the fascinating world of animal health and behaviour. Students learn about anatomy, physiology, and diseases while building the foundations for careers in veterinary science, animal production and nutrition, or research.

Studying Law at the Swinburne University

Experience the first law degree in Victoria with a specialisation in IP and legal technology, and 60 days of law-related professional experience placements. Learn about trademarks, patents, designs and copyright, competition law and more.

Swinburne's 4-year Bachelor of Laws has a distinct emphasis on trademarks, patents and designs, copyright, technology and innovation, and the prohibition of misleading or deceptive conduct and competition law. The course offers students a degree that emphasises practical skills and real-world experience.

The Swinburne **Bachelor of Laws** program is fully accredited by the Council of Legal Education in Victoria and offers students the option of a single degree or combined program with degrees including cyber security, arts, psychological science, science, business or engineering.

The VCE prerequisites are Units 3 and 4 – a study score of at least 25 in any English, or 30 in EAL, and the subject adjustments (bonuses) awarded are for a study score of 25 in any business, any humanities or any LOTE subjects equalling 2 aggregate points per study, to an overall maximum of 12 points. A guaranteed ATAR of 80.00 was acceptable for 2026 entry.

To find out more visit [Bachelor of Laws](#).

Studying Forensic Science at Deakin

Deakin is the first university in the Asia-Pacific region and the only university in Australia to offer professionally accredited forensic sciences courses, giving you the potential to work anywhere in the world.

This course exposes students to the full scope of modern forensic science, from simulated crime scenes to courtroom presentations. There is a strong focus on practical training, and students graduate with the skills needed to confidently examine, interpret and present forensic evidence.

This degree is comprehensive and flexible, and the course covers a wide range of disciplines including illicit drugs analysis, DNA analysis and more. Students can elect to customise their degree to suit their interests by selecting to specialise in forensic biology or forensic chemistry.

Find out more at [Bachelor of Forensic Science at Deakin](#).

What is a Sports Physiotherapist?

The [Health Times](#) website indicates that sports physiotherapy is a *specialised branch of physiotherapy, and sports physios provide advice on how to avoid sports injuries, treat injuries and help recovery for those playing recreational sport right through to elite sport.*

A sports physio is a registered physiotherapist who has achieved further study after completing a physiotherapy degree - in which students achieve an understanding of the physical, structural and the physiological aspects of human form and movement.

To become a sports physio, one will first need to complete a four-year bachelor degree in physiotherapy. Alternatively, students can complete an associated bachelor degree, such as in exercise physiology, followed by a postgraduate qualification in physiotherapy.

Physiotherapists can later choose to practice in sports physiotherapy but are unable to refer to themselves as a sports physio until they have achieved titled membership of the [Australian Physiotherapy Association \(APA\)](#).

Go behind the scenes at the World Surf League Rip Curl Pro

As the Official Higher Education Partner of the World Surf League Australia, Bond University is proud to invite Year 11 and 12 students to take an exclusive behind-the-scenes tour of one of international surfing's biggest events.

During a backstage tour, students will explore the athlete spaces, judging area, media and broadcast area and operations control room, then enjoy watching surfing royalty battle it out from the best seats in the house.

This experience offers front-row seats to a full lineup of careers from sport management to marketing, events, exercise and sports science, business, journalism, film and television and project management. A Bond University representative will be on site to answer any questions students might have about Bond.

Date: Friday 3 April 2026

Time: 10.00am

Location: Bells Beach, Victoria

RMIT April School Holiday Campus Tours

Organisation: RMIT University

Location: RMIT University, Bundoora, City & Brunswick Campuses

Date: April 13 to April 17, 2026

This is your chance to explore the RMIT campus of your choice and see how our cutting-edge facilities will help you develop job-ready skills. The tours are your chance to walk and talk with RMIT academics and/or student ambassadors .

The tours will run for a week during the April school holidays and will cover our three Melbourne campuses: our iconic Melbourne City campus, the state-of-the-art creative spaces at our Brunswick campus, and the high-tech marvels of the Bundoora campus. For those who are interested in seeing more, there will also be optional accommodation tours at the end of each session.

Before the tours, you'll sit through a presentation with our staff, curated based on the interest area session you have chosen. You will also have a chance to speak to staff and students about RMIT and our facilities, so bring your parents and friends along to get all your questions answered.

But that's not all – we will also be holding a raffle after each session. If you win you could score your choice of RMIT merch. To enter, all you need to do is attend one of the tours.
